Subject Groups - Issues, ideas and solutions to implementing new curriculum

The Good, The Bad and the Ugly

Reflections on 2018/2019
Senior Science Curriculum
Implementation.

The Good

Over the last 20 years, science education in BC has been better than good.

- ✓ Sometimes a good curriculum
- ✓ Good resources
- ✓ Clear goals
- ✓ Great teachers

DID BOND GIRL DIE AFTER
BEING PAINTED GOLD?

How Canada became an education superpower

The Bad

We'll leave this to personal interpretation, but there's probably 300 million reasons a year to consider. But remember the flashbulb event.

“Today’s students will grow into a world that is very different from and more connected than that of generations before”

*BC Ministry of Education
Curriculum Overview*

A legacy that must change

The Ugly

WYSIWYG

What you see is what you get,
But we all see different things.

If we don't say it, it doesn't count

If it's not in the curriculum,
it's not mandated to fund.

Going Forward

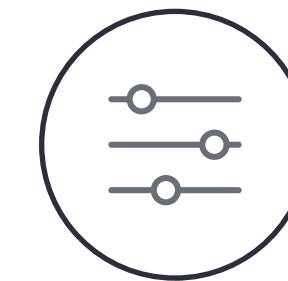

Considerations for the next year

OR

Finding the signal through the noise

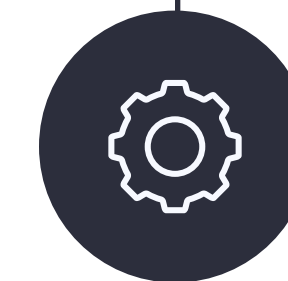

OR

How do we continue in the manner of
excellence we're already doing?

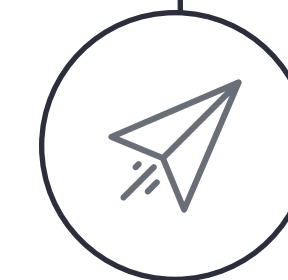

Engage

Build networks with people doing
the same thing as you.

Connect

Build networks with people doing
the same thing as you.

Share

You have good ideas. Let others know
